

REPORT TO THE HEARING OFFICER

DATE ISSUED: November 20, 2025

HEARING DATE: December 2, 2025 AGENDA ITEM: #5

PROJECT NUMBER: PRJ2024-002943-(5)

PERMIT NUMBER(S): Conditional Use Permit No. RPPL2024004368

SUPERVISORIAL DISTRICT: 5

PROJECT LOCATION: 8557 East Avenue S-8, Littlerock

OWNER: Jose and Palmenia De La Rosa

APPLICANT: APC Towers

PUBLIC MEETINGS HELD: N/A

CASE PLANNER: Christopher Keating, AICP, Planner
ckeating@planning.lacounty.gov

RECOMMENDATION

The following recommendation is made prior to the public hearing and is subject to change based upon testimony and/or documentary evidence presented at the public hearing:

LA County Planning staff ("Staff") recommends **APPROVAL** of Project Number PRJ2024-002943-(5), Conditional Use Permit ("CUP") No. RPPL2024004368, based on the Findings (Exhibit C – Findings) contained within this report and subject to the Draft Conditions of Approval (Exhibit D – Conditions of Approval).

Staff recommends the following motions:

I, THE HEARING OFFICER, CLOSE THE PUBLIC HEARING AND FIND THAT THE PROJECT IS CATEGORICALLY EXEMPT PURSUANT TO STATE AND LOCAL CEQA GUIDELINES.

I, THE HEARING OFFICER, APPROVE CONDITIONAL USE PERMIT NO. RPPL2024004368 SUBJECT TO THE ATTACHED FINDINGS AND CONDITIONS.

PROJECT DESCRIPTION

A. Entitlement(s) Requested

- Conditional Use Permit (“CUP”) to authorize the construction, operation and maintenance of a new wireless communications facility (“WCF”) consisting of a 72-foot-tall faux water tank and appurtenant facilities for one carrier, Verizon (“Project”), on a property located at 8557 East Avenue S-8 (“Project Site”) in the unincorporated community of Littlerock in the A-2-1 (Heavy Agricultural – One Acre Minimum Required Lot Area) Zone pursuant to County Code Sections 22.16.030.C (Land Use Regulations for Zones A-1, A-2, O-S, R-R, and W) and 22.140.760 (Wireless Facilities). The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Additionally, the Project requires a CUP because County Code Section 22.140.760.D.2.a (Wireless Facilities, Application Requirements, Conditional Use Permit) requires a CUP for a new macro facility not installed on an existing base station or tower.

B. Project

APC Towers (“applicant”) requests a CUP to authorize the construction, operation and maintenance of a new WCF consisting of a 72-foot-tall faux water tank and appurtenant facilities for one carrier, Verizon, with a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard (“Project”), located at 8557 East Avenue S-8 (“Project Site”) within the A-2-1 Zone and Southeast Antelope Valley Community Standards District (“CSD”) in the Littlerock Zoned District.

The Project Site is comprised of one parcel: Assessor’s Parcel Number (“APN”) 3051-005-034. The Project Site is a 2.41-acre rectangular-shaped parcel with flat terrain. The Project Site is presently developed with an existing one-story 1,200 square-foot single-family residence (“SFR”) in the southeastern portion of the parcel. The proposed WCF is located on the northwestern portion of the parcel within an approximate 1,600 square-foot lease area. The Project Site is accessible from East Avenue S-8, a private unimproved road with a width of 30 feet. The nearest accessible public road, via E Avenue S-8 to the east, is 90th Street East which has a right-of-way (“ROW”) width of 60 feet and is improved with 28 feet of paving.

The Site Plan depicts the subject WCF on the northwestern portion of the parcel, showing the WCF lease area 254 feet and 9 inches from the southern property line (front yard), 25 feet from the western property line (side yard), 267 feet and 9 inches from the eastern property line (side yard), and 35 feet and 8 inches from the northern property line (rear yard). Additionally, the Site Plan shows the approximately 1,600-square-foot lease area consisting of a 72-foot-tall faux water tank, appurtenant facilities, and an eight-foot-tall CMU wall around the WCF’s lease area to screen the equipment. The equipment plan depicts the proposed wireless equipment consisting of 16 remote radio units (RRUs), 16 panel antennas, and one four-foot microwave dish. The elevations page of the Site Plan

depicts the proposed height of the faux-water tank with a maximum height of 72 feet above grade level; additionally, the elevations page shows the eight-foot-tall CMU wall.

Pursuant to County Code Section 22.112.070.B (Parking), the required parking provided for uses not specified in the County Code may be determined by the Director of LA County Planning to prevent traffic congestion and excessive on-street parking. The proposed WCF is unmanned and requires only periodic maintenance, which is not anticipated to generate significant traffic. There is ample space for parking available on the property. Therefore, no designated parking space is required for the Project.

SUBJECT PROPERTY AND SURROUNDINGS

The following chart provides property data within a 500-foot radius:

LOCATION	ANTELOPE VALLEY AREA PLAN LAND USE POLICY	ZONING	EXISTING USES
SUBJECT PROPERTY	RL10 (Rural Land 10 – One Dwelling Unit per 10 Acres), RL20 (Rural Land 20 – One Dwelling Unit per 20 Acres)	A-2-1	SFR
NORTH	RL10, RL20	A-2-1	SFRs, Vacant Land
EAST	RL10	A-2-1	SFRs, Vacant Land
SOUTH	RL10	A-2-1	SFRs, Vacant Land
WEST	RL10, RL20	A-2-1	SFRs, Vacant Land

PROPERTY HISTORY

A. Zoning History

ORDINANCE NO.	ZONING	DATE OF ADOPTION

Zoning Enforcement Case No. RPCE2019000827	Junk and salvage; unpermitted mobilehome on the property	Opened on February 13, 2019; closed on February 4, 2020

ANALYSIS

A. Land Use Compatibility

The Project Site is presently developed with an existing one-story 1,200 square-foot SFR in the southeastern portion of the parcel. The proposed WCF is located on the northwestern portion of the parcel within an approximate 1,600 square-foot lease area. The surrounding parcels are mostly two-and-one-half acre in size, developed with SFRs and agricultural land uses for crops, livestock, and equestrian activities. Some parcels in the surrounding area are undeveloped, vacant parcels. The Project will remain compatible with surrounding land uses in that it proposes the maintenance of the residential use on the property. The proposed WCF will enhance surrounding properties by providing critical telecommunications infrastructure for the adjacent rural residents in the unincorporated communities of Littlerock and Sun Village.

B. Neighborhood Impact (Need/Convenience Assessment)

Based on the propagation maps, the WCF will provide important coverage for the rural residents in the Littlerock and Sun Village communities, that would not exist otherwise. Without the WCF, there would be a coverage gap, particularly for indoor cellular service. The WCF is located approximately 193 feet from the nearest SFR, which is located on the subject parcel. The proposed faux water tank stealth design for the WCF mitigates visual impacts by incorporating the WCF into the existing rural community footprint of Littlerock and the nearby existing rural land uses.

C. Design Compatibility

The WCF design is deemed appropriate for the surrounding area which is primarily rural lots developed with commercial and residential land uses. The Project is visible from East Avenue S-8 and nearby SFRs. The WCF consists of a fully stealth design with a 72-foot-tall faux water tank tower and an eight-foot-tall CMU wall screening the appurtenant equipment. Faux water tank tower designs are the recommended and preferred design for rural areas, such as the unincorporated community of Littlerock, in the LA County Planning Wireless Design Guidelines. The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Due to the stealth design of the faux water tank, the longer monopole arm mount length will not be visible. The proposed WCF meets all other development standards pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards).

GENERAL PLAN/COMMUNITY PLAN CONSISTENCY

The Project is consistent with applicable goals and policies of the General Plan and Antelope Valley Area Plan. Consistency findings can be found in the attached Findings (Exhibit C – Findings).

ZONING ORDINANCE CONSISTENCY

The Project complies with all applicable zoning requirements. Consistency findings can be found in the attached Findings (Exhibit C – Findings).

BURDEN OF PROOF

The applicant is required to substantiate all facts identified by Sections 22.158.050.B (Conditional Use Permits, Findings and Decision – Findings) and 22.140.760.I (Wireless Facilities, Findings) of the County Code. The Burden of Proof form with applicant's responses is attached (Exhibit E – Applicant's Burden of Proof). Staff is of the opinion that the applicant has met the burden of proof required findings.

ENVIRONMENTAL ANALYSIS

Staff recommends that this Project qualifies for a Categorical Exemption (Class 3, New Construction or Conversion of Small Structures) under the California Environmental Quality Act ("CEQA") section 15303 and the County environmental guidelines because the Project involves the construction, operation, and maintenance of a new WCF consisting of a 72-foot-tall faux water tank and appurtenant facilities, which will have no significant effect on the environment and minimal footprint on the Project Site, similar to utility infrastructure. No development is proposed in a Significant Ecological Area or other designated environmental resource area. The Project does not result in cumulative impacts, is not included on a list of hazardous waste sites, does not impact historic resources, is not located nearby a scenic highway and does not result in other significant effects on the environment. Therefore, no exceptions to the exemptions are applicable and staff recommends that the Hearing Officer determine that the Project is categorically exempt from CEQA. An environmental determination (Exhibit F – Environmental Determination) was issued for the Project.

COMMENTS RECEIVED

A. County Department Comments and Recommendations

Staff has not received any comments at the time of report preparation. No review by County departments is required based on the scope of the Project.

B. Other Agency Comments and Recommendations

Staff has not received any comments at the time of report preparation.

C. Public Comments

The permittee presented the proposed Project to the Littlerock Town Council at a public meeting on July 10, 2025. The Littlerock Town Council has not submitted comments in support or opposition to the Project. No other public comments have been received.

RECITALS

1. **HEARING DATE(S).** The Los Angeles County (“County”) Hearing Officer conducted a duly noticed public hearing in the matter of Conditional Use Permit (“CUP”) No. **RPPL2024004368** on December 2, 2025.
2. **HEARING PROCEEDINGS.** *To be updated after the hearing.*
3. **ENTITLEMENT(S) REQUESTED.** The permittee, APC Towers (“permittee”), requests the CUP to authorize the construction, operation and maintenance of a new wireless communications facility (“WCF”) consisting of a 72-foot-tall faux water tank and appurtenant facilities for one carrier, Verizon (“Project”), on a property located at 8557 East Avenue S-8 (“Project Site”) in the unincorporated community of Littlerock in the A-2-1 (Heavy Agricultural – One Acre Minimum Required Lot Area) Zone pursuant to County Code Sections 22.16.030.C (Land Use Regulations for Zones A-1, A-2, O-S, R-R, and W) and 22.140.760 (Wireless Facilities). The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Additionally, the Project requires a CUP because County Code Section 22.140.760.D.2.a (Wireless Facilities, Application Requirements, Conditional Use Permit) requires a CUP for a new macro facility not installed on an existing base station or tower.
4. **LOCATION.** The Project is located at 8557 East Avenue S-8 within the Littlerock Zoned District, Antelope Valley Planning Area, and Southeast Antelope Valley Community Standards District (“CSD”).
5. **PREVIOUS ENTITLEMENT(S).** The Project Site, associated with Assessor’s Parcel Number (“APN”) 3051-005-034, is presently developed with an existing one-story 1,200 square-foot single-family residence (“SFR”) authorized by Site Plan Review No. RPPL2019000769 on August 5, 2020. Additionally, Certificate of Compliance No. RPPL2019000771 authorized the conversion of Certificate of Exemption No. 20494 to a Certificate of Compliance on April 23, 2019.
6. **LAND USE DESIGNATION.** The Project Site is located within the RL10 (Rural Land 10 – One Dwelling Unit per Ten Acres) and RL20 (Rural Land 20 – One Dwelling Unit per 20 Acres) land use categories of the Antelope Valley Area Plan (“Area Plan”) Land Use Policy Map, a component of the General Plan. The majority of the parcel is located within the RL10 land use designation; the northwestern corner of the parcel adjacent to the proposed WCF lease area is designated as RL20.

7. **ZONING.** The Project Site is located in the Littlerock Zoned District and is currently zoned A-2-1. Pursuant to County Code Section 22.16.030.C (Land Use Regulations for Zones A-1, A-2, O-S, R-R, and W), a CUP is required for wireless facilities, in compliance with County Code Section 22.140.760.D.2 (Wireless Facilities, Application Requirements, CUP), in the A-2-1 Zone when a new macro facility is installed on a new base station. Additionally, County Code Sections 22.140.760.E (Wireless Facilities, Development Standards) and 22.340.070 (Southeast Antelope Valley CSD, Zone Specific Development Standards) apply to the Project.

8. **SURROUNDING LAND USES AND ZONING.** The following chart provides property data within a 500-foot radius:

LOCATION	AREA PLAN LAND USE POLICY	ZONING	EXISTING USES
NORTH	RL10, RL20	A-2-1	SFRs, Vacant Land
EAST	RL10	A-2-1	SFRs, Vacant Land
SOUTH	RL10	A-2-1	SFRs, Vacant Land
WEST	RL10, RL20	A-2-1	SFRs, Vacant Land

9. **PROJECT AND SITE PLAN DESCRIPTION.**

A. Existing Site Conditions

The Project Site is comprised of one parcel: Assessor's Parcel Number ("APN") 3051-005-034. The Project Site is a 2.41-acre rectangular-shaped parcel with flat terrain. The Project Site is presently developed with an existing one-story 1,200 square-foot single-family residence in the southeastern portion of the parcel. The proposed WCF is located on the northwestern portion of the parcel within an approximate 1,600 square-foot lease area.

B. Site Access

The Project Site is accessible from East Avenue S-8, a private unimproved road with a width of 30 feet. The nearest accessible public road, via E Avenue S-8 to the east, is 90th Street East which has a right-of-way ("ROW") width of 60 feet and is improved with 28 feet of paving.

C. Site Plan

The Site Plan depicts the subject WCF on the northwestern portion of the parcel, showing the WCF lease area 254 feet and 9 inches from the southern property line (front yard), 25 feet from the western property line (side yard), 267 feet and 9 inches from the eastern property line (side yard), and 35 feet and 8 inches from the northern property line (rear yard). Additionally, the Site Plan shows the approximately 1,600-square-feet lease area consisting of a 72-foot-tall faux water tank, appurtenant facilities, and an eight-foot-tall concrete masonry unit ("CMU") wall around the WCF's lease area to screen the equipment. The equipment plan depicts the proposed wireless equipment consisting of 16 remote radio units ("RRUs"), 16 panel antennas, and one four-foot microwave dish. The elevations page of the Site Plan depicts the proposed height of the faux-water tank with a maximum height of 72 feet above grade level; additionally, the elevations page shows the eight-foot-tall CMU wall.

D. Parking

Pursuant to County Code Section 22.112.070.B (Parking), the required parking provided for uses not specified in the County Code may be determined by the Director of LA County Planning to prevent traffic congestion and excessive on-street parking. The proposed WCF is unmanned and requires only periodic maintenance, which is not anticipated to generate significant traffic. There is ample space for parking available on the property. Therefore, no designated parking space is required for the Project.

10. **CEQA DETERMINATION.** Prior to the Hearing Officer's public hearing on the Project, LA County Planning staff determined that the Project qualifies for a Categorical Exemption (Class 3, New Construction or Conversion of Small Structures) under the California Environmental Quality Act ("CEQA") section 15303 and the County environmental guidelines because the Project involves the construction, operation, and maintenance of a new wireless communications facility consisting of a 72-foot-tall faux water tank and appurtenant facilities, which will have no significant effect on the environment and minimal footprint on the Project Site, similar to utility infrastructure. No development is proposed in a Significant Ecological Area or other designated environmental resource area. The Project does not result in cumulative impacts, is not included on a list of hazardous waste sites, does not impact historic resources, is not located nearby a scenic highway and does not result in other significant effects on the environment. Therefore, no exceptions to the exemptions are applicable and the Project is categorically exempt from CEQA.
11. **PUBLIC COMMENTS.** The permittee presented the proposed Project to the Littlerock Town Council at a public meeting on July 10, 2025. The Littlerock Town Council has not submitted comments in support or opposition to the Project. No other public comments have been received.
12. **LEGAL NOTIFICATION.** Pursuant to Section 22.222.120 (Public Hearing) of the County Code, the community was properly notified of the public hearing by mail, newspapers (Antelope Valley Press), and property posting. Additionally, the Project was noticed and case materials were available on LA County Planning's website. On October 21, 2025, a total of 43 Notices of Public Hearing were mailed to all property owners as identified on the County Assessor's record within a 1,000-foot radius from the Project Site, as well as 13 notices to those on the courtesy mailing list for the Littlerock Zoned District and to any additional interested parties.

GENERAL PLAN CONSISTENCY FINDINGS

13. LAND USE POLICY. The Hearing Officer finds that the Project is consistent with the goals and policies of the Area Plan because the RL10 and RL20 land use designations are intended for rural SFRs, equestrian and animal uses, and agricultural activities. The proposed WCF is compatible with the surrounding land uses as it provides critical telecommunications infrastructure for the adjacent rural residents. Although WCFs are not specifically mentioned in the RL10 and RL20 land use designations, WCFs are considered necessary infrastructure and a utility to support the underlying and intended land uses of the subject parcel and adjacent land uses, such as SFRs and agricultural land uses. Specific allowable uses in the RL10 and RL20 land use designations are determined by the underlying zoning designation, A-2-1.

14. GOALS AND POLICIES. The Hearing Officer finds that the Project is consistent with the goals and policies of the General Plan applicable to the proposed project:

- a. *General Plan Public Services and Facilities Policy PS/F 6.2:* “Improve existing wired and wireless telecommunications infrastructure.”

The Project would improve vital telecommunications infrastructure in the area. Based on the provided propagation maps, the WCF will provide important coverage in the Littlerock community that would not exist otherwise, serving the nearby residents and travelers. Without the WCF, there would be a coverage gap, particularly for indoor cellular service.

- b. *General Plan Public Services and Facilities Policy PS/F: 6.3:* “Expand access to wireless technology networks, while minimizing impacts through co-location and design.”

The Project will help provide wireless telecommunications service in the area. The Project features a stealth design, camouflaged as a 72-foot-tall faux water tank. Additionally, the WCF serves one carrier, Verizon, with the ability to co-locate additional carriers in the future.

- c. *Area Plan Land Use Policy LU 2.1:* “Limit the amount of potential development in Significant Ecological Areas, including Joshua Tree Woodlands, wildlife corridors, and other sensitive habitat areas.”

The Project is located approximately seven feet from a nearby SEA, avoiding the protected zone to ensure that sensitive habitat areas are not impacted.

ZONING CODE CONSISTENCY FINDINGS

- 15. PERMITTED USE IN ZONE.** The Hearing Officer finds that the Project is consistent with the A-2-1 zoning classification as WCFs are permitted in this zone with a CUP pursuant to County Code Section 22.16.030.C (Land Use Regulations for Zones A-1, A-2, O-S, R-R, and W). A WCF can be permitted through a Site Plan Review (“SPR”) if it complies with all applicable development standards. However, if it does not fully comply, such as the subject Project, then a CUP is required. The Project requires a CUP pursuant to County Code Section 22.140.760.D.2 (Wireless Facilities, Application Requirements, CUP Application Requirements) because it is a new macro facility on a new base station. In addition, the Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards).
- 16. DESIGN (WIRELESS FACILITIES).** The Hearing Officer finds that the Project is consistent with the development standards identified in County Code Section 22.140.760.E (Wireless Facilities, Development Standards). The WCF design is deemed appropriate for the surrounding area which is primarily rural lots developed with commercial and residential land uses. The Project is visible from East Avenue S-8 and nearby SFRs. The WCF consists of a fully stealth design with a 72-foot-tall faux water tank tower and an eight-foot-tall CMU wall screening the appurtenant equipment. Faux water tank tower designs are the recommended and preferred design for rural areas, such as the unincorporated community of Littlerock, in the LA County Planning Wireless Design Guidelines. The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Due to the stealth design of the faux water tank, the longer monopole arm mount length will not be visible. The proposed WCF meets all other development standards pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards).
- 17. HEIGHT (WIRELESS FACILITIES).** The Hearing Officer finds that the Project is consistent with the standard identified in County Code Section 22.140.760.E.1.c.iii (Wireless Facilities, Development Standards, General Standards, Height) which specifies the maximum height for WCFs in the Agricultural Zones as 75 feet. The proposed WCF is 72 feet tall, and therefore is consistent with the height requirement.
- 18. LOCATION (WIRELESS FACILITIES).** The Hearing Officer finds that the Project complies with the location requirements for a WCF in the A-2-1 Zone, pursuant to County Code Section 22.140.760.E.1.b (Wireless Facilities, Development Standards, Location), which requires WCFs to not encroach into any required setback areas. The subject WCF is consistent with the minimum yard (setback) standards identified in County Code Section 22.16.050 (Development Standards for Zones A-1 and A-2), which requires a minimum front yard setback of 20 feet, a minimum side yard setback of five feet, and a minimum rear yard setback of 15 feet. The proposed WCF lease area is located 254 feet and 9 inches from the southern property line (front yard), 25 feet from the western property line (side yard), 267 feet and 9 inches from the eastern

property line (side yard), and 35 feet and 8 inches from the northern property line (rear yard).

The lease area is located approximately 7 feet and 4 inches from the Antelope Valley SEA, but does not encroach into the protected area. The WCF location is not visible from an adopted scenic highway, as no such highways are located in the area close to the Project. The proposed WCF is located approximately 193 feet from the nearest SFR, which is located on the Project Site. The proposed WCF is not located nearby any historic resources or public areas from which it would be highly visible. The faux water tank stealth design mitigates visual impacts by incorporating the WCF into the existing rural community footprint of Littlerock and the nearby existing land uses.

19. **PARKING.** The Hearing Officer finds that the Project Site has adequate parking facilities to serve the Project. The County Code does not include a specific standard for parking for WCFs. Pursuant to County Code Section 22.112.070.B (Required Parking Spaces) of the County Code, the required parking provided for uses not specified in the County Code shall be determined by the Director in an amount sufficient to prevent traffic congestion and excessive on-street parking. The proposed WCF is unmanned and requires only periodic maintenance, which is not anticipated to generate significant traffic. There is ample space for parking available on the property and the site plan depicts a large open area east of the subject WCF which is sufficient to provide parking for the vehicles which are needed for routine maintenance of the WCF. No designated parking space is required for the Project.
20. **RURAL OUTDOOR LIGHTING DISTRICT.** The Hearing Officer finds that the Project Site is located within the Rural Outdoor Lighting District and is subject to the applicable requirements in County Code Chapter 22.80 (Rural Outdoor Lighting District). The WCF is consistent with the standards outlined by the Rural Outdoor Lighting District. All lighting on the Project Site will be shielded and follow the maximum height requirements of 20 feet in the A-2-1 Zone. Any lighting established at this location in the future would also be required to comply with these standards.
21. **SOUTHEAST ANTELOPE VALLEY COMMUNITY STANDARDS DISTRICT.** The Hearing Officer finds that the Project Site is located within the Southeast Antelope Valley CSD and is subject to the applicable requirements in County Code Chapter 22.340 (Southeast Antelope Valley CSD). The WCF is consistent with the standards outlined by the Southeast Antelope Valley CSD.

CONDITIONAL USE PERMIT FINDINGS

- 22. The Hearing Officer finds that the proposed use with the attached conditions will be consistent with the adopted General Plan.** The Project is consistent with the RL10 and RL20 land use designations in the Area Plan which are intended for rural SFRs, equestrian and animal uses, and agricultural activities. The proposed WCF is compatible with the surrounding land uses as it provides critical telecommunications infrastructure for the adjacent rural residents. Although WCFs are not specifically mentioned in the RL10 and RL20 land use designations, WCFs are considered necessary infrastructure and a utility to support the underlying and intended land uses of the subject parcel and adjacent land uses, such as SFRs and agricultural land uses.
- 23. The Hearing Officer finds that the proposed use at the site will not adversely affect the health, peace, comfort, or welfare of persons residing or working in the surrounding area; will not be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site; and will not jeopardize, endanger, or otherwise constitute a menace to the public health, safety, or general welfare.** The permittee has provided cellular service coverage maps to demonstrate the necessity of the operation of the proposed WCF because it provides vital telecommunications infrastructure for the area. Based on the propagation maps, the WCF will provide important coverage for the rural residents in the Littlerock and Sun Village communities, that would not exist otherwise. Without the WCF, there would be a coverage gap, particularly for indoor cellular service. The WCF is located approximately 193 feet from the nearest SFR, which is located on the subject parcel. The proposed faux water tank stealth design for the WCF mitigates visual impacts by incorporating the WCF into the existing rural community footprint of Littlerock and the nearby existing rural land uses.
- 24. The Hearing Officer finds that the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.** The Project meets all setback requirements, parking, and all other development standards pursuant to County Code Section 22.16.050 (Development Standards for Zones A-1 and A-2). The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Due to the stealth design of the faux water tank, the longer monopole arm mount length will not be visible. The proposed WCF meets all other development standards, including height, location, and design, pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). The Project is designed to integrate into the surrounding area.
- 25. The Hearing Officer finds that the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.** The proposed WCF is an unmanned facility that only requires occasional maintenance, and therefore unlikely to generate

significant traffic. Further, the WCF is accessible via East Avenue S-8 a private unimproved road with a width of 30 feet. The nearest accessible public road, via E Avenue S-8 to the east, is 90th Street East which has a ROW width of 60 feet and is improved with 28 feet of paving. The Project Site has adequate capacity to accommodate the Project's maintenance activities.

SUPPLEMENTAL FINDINGS – WIRELESS FACILITIES

26. **The Hearing Officer finds that the facility complies with all applicable standards in County Code Section 22.140.760 (Wireless Facilities) unless a waiver has been requested, pursuant to Subsection L.** The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Due to the stealth design of the faux water tank, the longer monopole arm mount length will not be visible. The proposed WCF meets all other development standards, including height, location, and design, pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards).
27. **The Hearing Officer finds that the design and placement of the facility are the least visually intrusive that are technically feasible and appropriate for the location.** The WCF design and placement is the least visually intrusive that is technically feasible. The WCF is deemed appropriate for the surrounding area which is primarily rural lots developed with residential and agricultural land uses. The Project is visible from East Avenue S-8 and nearby SFRs. The WCF consists of a fully stealth design with a 72-foot-tall faux water tank tower and an eight-foot-tall CMU wall screening the appurtenant equipment. Faux water tank tower designs are the recommended and preferred design for rural areas, such as the unincorporated community of Littlerock, in the LA County Planning Wireless Design Guidelines. The proposed faux water tank is a better feature to conceal the equipment when compared to other designs such as faux windmill and monotree designs. The Project requires a waiver for a four-foot-long arm mount in lieu of the maximum two-foot-long arm mount development standard pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards). Due to the stealth design of the faux water tank, the longer monopole arm mount length will not be visible. The proposed WCF meets all other development standards pursuant to County Code Section 22.140.760.E (Wireless Facilities, Development Standards).
28. **The Hearing Officer finds that the facility at the proposed location is necessary to close a significant gap in coverage.** Based on the propagation maps, the WCF provides important coverage for the rural residents in the Littlerock and Sun Village communities, that would not exist otherwise. Without the WCF, there would be a coverage gap, particularly for indoor cellular service.
29. **The Hearing Officer finds that the location of the facility is the least intrusive feasible and does not create a safety hazard.** The proposed location was chosen to be the least intrusive feasible. The proposed lease area is located outside of all required setback areas; approximately 193 feet from the nearest SFR; 254 feet from the nearest ROW, East Avenue S-8; and seven feet from an SEA, avoiding the protected area.

Furthermore, the faux water tank stealth design mitigates visual impacts by incorporating the WCF into the existing rural community footprint of Littlerock and the nearby existing rural land uses.

30. The Hearing Officer finds that to ensure continued compatibility between the Project and the surrounding land uses, it is necessary to limit the CUP to 20 years.

ENVIRONMENTAL FINDINGS

31. The Hearing Officer finds that the Project is exempt from the California Environmental Quality Act pursuant to State CEQA Guidelines section 15303 (Class 3, New Construction or Conversion of Small Structures) and the County environmental guidelines because the Project involves the construction, operation, and maintenance of a new wireless communications facility consisting of a 72-foot-tall faux water tank and appurtenant facilities, which will have no significant effect on the environment and minimal footprint on the Project Site, similar to utility infrastructure. No development is proposed in a Significant Ecological Area or other designated environmental resource area. The Project does not result in cumulative impacts, is not included on a list of hazardous waste sites, does not impact historic resources, is not located nearby a scenic highway and does not result in other significant effects on the environment. Therefore, no exceptions to the exemptions are applicable and the Project is categorically exempt from CEQA.

ADMINISTRATIVE FINDINGS

32. **LOCATION OF DOCUMENTS.** The location of the documents and other materials constituting the record of proceedings upon which the Hearing Officer's decision is based in this matter is at LA County Planning, 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the North County Development Services Section, LA County Planning.

BASED ON THE FOREGOING, THE HEARING OFFICER CONCLUDES THAT:

- A. The proposed use with the attached conditions will be consistent with the adopted General Plan.
- B. The proposed use at the site will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, will not be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, and will not jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare.
- C. The proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.

- D. The proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.
- E. The facility complies with all applicable standards in County Code Section 22.140.760 (Wireless Facilities) unless a waiver has been requested, pursuant to Subsection L.
- F. The design and placement of the facility are the least visually intrusive that are technically feasible and appropriate for the location.
- G. The facility at the proposed location is necessary to close a significant gap in coverage.
- H. The location of the facility is the least intrusive feasible and does not create a safety hazard.
- I. The requested waiver is necessary because the maximum two-foot-long arm mount development standard would require a technically infeasible design or installation of a wireless facility.

THEREFORE, THE HEARING OFFICER:

- 1. Finds that the Project is exempt from the California Environmental Quality Act pursuant to State CEQA Guidelines section 15303 (Class 3, New Construction or Conversion of Small Structures); and
- 2. Approves **CONDITIONAL USE PERMIT NO. RPPL2024004368**, subject to the attached conditions.

ACTION DATE: December 2, 2025

November 20, 2025

c: Zoning Enforcement, Building and Safety

LOS ANGELES COUNTY
DEPARTMENT OF REGIONAL PLANNING

DRAFT CONDITIONS OF APPROVAL
PROJECT NO. PRJ2023-002552-(5)
CONDITIONAL USE PERMIT NO. RPPL2024004368

PROJECT DESCRIPTION

The project is a Conditional Use Permit (“CUP”) to authorize the construction, operation and maintenance of a new wireless communications facility (“WCF”) consisting of a 72-foot-tall faux water tank and appurtenant facilities for one carrier, Verizon, in the A-2-1 (Heavy Agricultural – One Acre Minimum Required Lot Area) Zone (“Project”), located at 8557 East Avenue S-8 (“Project Site”), subject to the following conditions of approval:

GENERAL CONDITIONS

1. Unless otherwise apparent from the context, the term “Permittee” shall include the applicant, owner of the property, and any other person, corporation, or other entity making use of this grant.
2. This grant shall not be effective for any purpose until the Permittee, and the owner of the subject property if other than the Permittee, have filed at the office of the Los Angeles County ("County") Department of Regional Planning (“LA County Planning”) their affidavit stating that they are aware of and agree to accept all of the conditions of this grant, and that the conditions of the grant have been recorded as required by Condition No. 6, and until all required monies have been paid pursuant to Condition No. 9. Notwithstanding the foregoing, this Condition No. 2 and Condition Nos. 3, 4, and 8 shall be effective immediately upon the date of final approval of this grant by the County.
3. The Permittee shall defend, indemnify, and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void, or annul this permit approval, which action is brought within the applicable time period of Government Code section 65009 or any other applicable limitations period. The County shall promptly notify the Permittee of any claim, action, or proceeding and the County shall reasonably cooperate in the defense. If the County fails to promptly notify the Permittee of any claim, action, or proceeding, or if the County fails to cooperate reasonably in the defense, the Permittee shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
4. In the event that any claim, action, or proceeding as described above is filed against the County, the Permittee shall within ten days of the filing make an initial deposit with LA County Planning in the amount of up to \$5,000.00, from which actual costs and expenses shall be billed and deducted for the purpose of defraying the costs or expenses involved in LA County Planning's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance provided to Permittee or Permittee's counsel.

If during the litigation process, actual costs or expenses incurred reach 80 percent of the amount on deposit, the Permittee shall deposit additional funds sufficient to bring the balance up to the amount of \$5,000.00. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.

At the sole discretion of the Permittee, the amount of an initial or any supplemental deposit may exceed the minimum amounts defined herein. Additionally, the cost for collection and duplication of records and other related documents shall be paid by the Permittee according to County Code Section 2.170.010.

5. If any material provision of this grant is held or declared to be invalid by a court of competent jurisdiction, the permit shall be void and the privileges granted hereunder shall lapse.
6. Prior to the use of this grant, the Permittee, or the owner of the subject property if other than the Permittee, shall **record the terms and conditions** of the grant in the office of the County Registrar-Recorder/County Clerk (i.e. Recorder's Office). In addition, upon any transfer or lease of the property during the term of this grant, the Permittee, or the owner of the subject property if other than the Permittee, shall promptly provide a copy of the grant and its conditions to the transferee or lessee of the subject property.
7. **This grant shall terminate on December 2, 2045.** Entitlement to use of the property thereafter shall be subject to the regulations then in effect. If the Permittee intends to continue operations after such date, whether or not the Permittee proposes any modifications to the use at that time, the Permittee shall file a new Conditional Use Permit application with LA County Planning, or shall otherwise comply with the applicable requirements at that time. Such application shall be filed at least twelve months prior to the expiration date of this grant and shall be accompanied by the required fee. In the event that the Permittee seeks to discontinue or otherwise change the use, notice is hereby given that the use of such property may require additional or different permits and would be subject to the then-applicable regulations.
8. This grant shall expire unless used within two (2) years from the date of final approval of the grant. A single one-year time extension may be requested in writing and with the payment of the applicable fee prior to such expiration date.
9. The subject property shall be maintained and operated in full compliance with the conditions of this grant and any law, statute, ordinance, or other regulation applicable to any development or activity on the subject property. Failure of the Permittee to cease any development or activity not in full compliance shall be a violation of these conditions. No provision of any easement of or any other encumbrance on the property shall exempt the Permittee and/or property owner from compliance with these conditions and applicable regulations. Inspections shall be made to ensure compliance with the conditions of this grant as well as to ensure that any development undertaken on the subject property is in accordance with the approved site plan on file. The Permittee shall deposit with the County the sum **\$4,560.00** which shall be placed in a performance fund and be used exclusively to reimburse LA

County Planning for all expenses incurred while inspecting the premises to determine the Permittee's compliance with the conditions of this grant. The fund provides for 10 inspections.

Inspections may be unannounced. Inspections may be conducted utilizing any available technologies, including, but not limited to, unmanned aircraft systems (UAS). Use of an UAS requires the consent of the Permittee pursuant to LA County Planning's UAS policy, which may be updated from time to time, and which shall be provided to the Permittee upon request.

If additional inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the subject property is being used in violation of any one of the conditions of this grant, the Permittee shall be financially responsible and shall reimburse LA County Planning for all additional enforcement efforts necessary to bring the subject property into compliance. The amount charged for additional inspections shall be \$456.00 per inspection, or the current recovery cost established by LA County Planning at the time any additional inspections are required, whichever is greater.

10. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission ("Commission") or a Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if the Commission or Hearing Officer finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public's health or safety or so as to be a nuisance, or as otherwise authorized pursuant to Chapter 22.238 of the County Code.
11. All development pursuant to this grant must be kept in full compliance with the County Fire Code to the satisfaction of the County Fire Department.
12. All development pursuant to this grant shall conform with the requirements of the County Department of Public Works to the satisfaction of said department.
13. All development pursuant to this grant shall comply with the requirements of Title 22 of the County Code and of the specific zoning of the subject property, unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of LA County Planning ("Director").
14. The Permittee shall maintain the subject property in a neat and orderly fashion. The Permittee shall maintain free of litter all areas of the premises over which the Permittee has control.
15. All structures, walls and fences open to public view shall remain free of graffiti or other extraneous markings, drawings, or signage that was not approved by LA County Planning. These shall include any of the above that do not directly relate to the facility being operated on the premises or that do not provide pertinent information about

said premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.

In the event of graffiti or other extraneous markings occurring, the Permittee shall remove or cover said markings, drawings, or signage within 48 hours of such notification, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible, the color of the adjacent surfaces.

16. The subject property shall be developed and maintained in substantial conformance with the plans marked Exhibit "A." If changes to any of the plans marked Exhibit "A" are required as a result of instruction given at the public hearing, **one (1) digital copy** of a modified Exhibit "A" shall be submitted to LA County Planning by **January 31, 2026**.
17. In the event that subsequent revisions to the approved Exhibit "A" are submitted, the Permittee shall submit **one (1) digital copy** of the proposed plans to the Director for review and approval. All revised plans must substantially conform to the originally approved Exhibit "A." All revised plans must be accompanied by the written authorization of the property owner(s) and applicable fee for such revision.

PERMIT-SPECIFIC CONDITIONS – CONDITIONAL USE PERMIT (WIRELESS COMMUNICATIONS FACILITY)

18. The facility shall be operated in accordance with regulations of the California State Public Utilities Commission.
19. Upon completion of construction of the facility, the Permittee shall provide upon request, written certification to the Zoning Enforcement Section of LA County Planning ("Zoning Enforcement") that the radio frequency electromagnetic emissions levels comply with adopted Federal Communications Commission ("FCC") limitations for general population/uncontrolled exposure to such emissions when operating at full strength and capacity. If other wireless facilities are located on the subject property or on adjoining or adjacent properties, the written certification report shall include the radio frequency electromagnetic emissions of said wireless facility. No facility or combination of facilities shall produce at any time exposure levels in any general population area that exceed the applicable FCC standards for radiofrequency electromagnetic emissions in accordance with County Code Section 22.140.760.E.1.e.ii (Safety Standards).
20. Insofar as is feasible, the Permittee shall cooperate with any subsequent applicants for wireless facilities in the vicinity with regard to possible co-location. Such subsequent applications will be subject to the regulations in effect at that time.
21. Any modifications to the facility qualifying as an Eligible Facilities Request, as described in Section 6409(a) of the Spectrum Act, shall require the submittal of a Revised Exhibit "A" application or a Site Plan Review application pursuant to County Code Section 22.140.760.G (Modifications to Existing Macro Facilities), and modifications shall be approved if they are within the limits established by the FCC.

22. If any wireless facilities that subsequently co-locates on the facility shall be required, upon request, to provide the same written certification required in Condition No. 19, above.
23. If any external lighting is proposed, including security lighting, it shall be on motion sensors, be of low intensity, and be fully shielded and directed away from any adjacent or adjoining properties and public rights-of-way. Pole mounted lighting is prohibited on the leasehold. Antenna lighting is prohibited. Beacon lights are prohibited unless required by the Federal Aviation Administration.
24. Construction and maintenance of the facility shall be limited to the hours of 9:00 a.m. to 5:00 p.m. Monday through Friday. Emergency repairs of the facility may occur at any time.
25. The placement and height of all tower-mounted equipment shall be in substantial conformance with that shown on the approved Exhibit "A." The facility shall be maintained as depicted on the approved Exhibit "A" and in the approved photographic simulations, which are attached to the approved Exhibit "A."
26. Maintenance vehicles shall not block access to driveways or garages.
27. The maximum height of the facility shall not exceed 75 feet above finished grade. Notwithstanding the preceding sentence, in accordance with Condition No. 21 above, as described in Section 6409(a) of the Spectrum Act, any height modification requests shall require the submittal of a Revised Exhibit "A" application or a Site Plan Review application pursuant to County Code Section 22.140.760.G (Modifications to Existing Macro Facilities). The requested height modification shall only be approved if it is within the limits established by the FCC.
28. Upon request, the Permittee shall provide proof of liability insurance for the facility to Zoning Enforcement.
29. The Permittee shall maintain current contact information with Zoning Enforcement.
30. The finished surface of the facility shall not be glossy or reflective in nature unless such finish is necessary to blend into existing design features. The finish shall be graffiti-resistant.
31. The facility shall be maintained in good condition and repair and shall remain free of: general dirt and grease; chipped, faded, peeling or cracked paint; trash, debris, litter, graffiti and other forms of vandalism; cracks, dents, blemishes and discolorations; visible rust or corrosion on any unpainted metal areas. Any damage from any cause shall be repaired by the Permittee within 30 days of notice. Weathered, faded or missing parts/materials used to disguise/camouflage the facility shall be maintained and/or replaced by the Permittee within 30 days of notice. Provided landscaping shall be maintained at all times and shall be promptly replaced if needed.

32. Upon request, the Permittee shall submit annual reports to Zoning Enforcement to show permit conditions compliance.
33. The FCC Antenna Structure Registration site number, conditional use permit number, primary leaseholder's and facility manager's contact information shall be kept current and prominently displayed on the facility where it can be easily viewed from ground level.
34. The facility shall be secured by fencing, gates and/or locks. All fencing or walls used for screening or securing the facility shall be composed of wood, vinyl, stone, concrete, stucco or wrought iron, or other durable materials approved by LA County Planning. New or replacement fencing consisting of chain links, chain link with slats, barbed and other types of wire fencing are prohibited.
35. If a wireless facility has ceased to operate for a period of 90 consecutive days, the facility shall be considered abandoned in accordance with County Code Section 22.140.760.M (Abandonment). Any permit or other approvals associated with that facility shall be deemed terminated and discontinued, unless before the end of the 90-day period, the Director determines that the facility has resumed operation, or an application has been submitted to transfer the approval to another operator. After 90 consecutive days of non-operation, the Permittee shall remove the abandoned wireless facility and restore the site to its original conditions. The Permittee shall provide written verification to LA County Planning of the removal of the facility within 30 days of the date the removal is completed. If the facility is not removed within 30 days after the permit/approval has been terminated pursuant to Subsection M, the facility shall be deemed to be a nuisance, and the County may cause the facility to be removed at the expense of the Permittee/operator or by calling any bond or other financial assurance to pay for removal.
36. Upon termination of this grant or after the facility has ceased to operate; the Permittee shall remove facility and clear the site of all equipment within 30 days of the termination date of this grant or within 30 days of the cease of operation date, whichever is earlier. The Permittee shall restore the site as nearly as practicable to the condition prior to the installation of the subject facility.
37. New equipment added to the facility shall not compromise the stealth design of the facility.
38. Appurtenant equipment boxes shall be maintained within the facility's lease area and shall be screened or camouflaged.

PROJECT SITE-SPECIFIC CONDITIONS

39. This grant shall authorize the construction, operation, and maintenance of an unmanned WCF, consisting of a 72-foot-tall faux water tank and appurtenant facilities.

**PROJECT NO. PRJ2023-002552-(5)
CONDITIONAL USE PERMIT NO.
RPPL2024004368**

**EXHIBIT D
CONDITIONS OF APPROVAL
PAGE 7 OF 7**

40. All lighting for the facility, if any is provided, shall be in compliance with the standards of the Rural Outdoor Lighting District, pursuant to County Code Sections 22.80.010 through 22.80.100.

CONDITIONAL USE PERMIT STATEMENT OF FINDINGS

Pursuant to County Code Section [22.158.050](#) (Findings and Decision), the applicant shall substantiate the following:

(Please see [Guidelines for Writing Your Conditional Use Permit Findings Statement](#). Do not repeat the statement or provide Yes/No responses. If necessary, attach additional pages.)

B.1 The proposed use will be consistent with the adopted General Plan for the area.

B.2 The requested use at the location proposed will not:

- a. Adversely affect the health, peace, comfort, or welfare of persons residing or working in the surrounding area;
- b. Be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site; and
- c. Jeopardize, endanger, or otherwise constitute a menace to the public health, safety, or general welfare.

B.3 The proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping, and other development features prescribed in this Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.

B.4 The proposed site is adequately served: a. By highways or streets of sufficient width, and improved as necessary to carry the kind and quantity of traffic such use would generate; and b. By other public or private service facilities as are required.

CONDITIONAL USE PERMIT FOR WIRELESS FACILITIES STATEMENT OF FINDINGS

Pursuant to County Code Section 22.140.760.I (Findings and Decision), the applicant shall substantiate the following:

(Do not repeat the statement or provide Yes/No responses. If necessary, attach additional pages.)

A. The facility complies with all applicable standards in Section 22.140.760, unless a waiver has been requested in Section 22.140.760.L (see below for waiver request).

The facility complies with all applicable standards.

B. The design and placement of the facility are the least visually intrusive that are technically feasible and appropriate for the location.

The Design and placement of the facility are the least visually intrusive that are technically feasible and is appropriate for the area as is exemplified by the monopine stealth design, and privacy slat fence around the equipment shelter.

C. For new wireless facilities, the facility at the proposed location is necessary to close a significant gap in coverage.

A propagation map showing the gap and the coverage proposed to close this gap in another form during the submittal.

D. For new wireless facilities, the location of the facility is the least intrusive feasible and does not create a safety hazard.

This location is the least intrusive location and does not create a safety hazard.

Waiver Requests: Pursuant to County Code Section 22.140.760.L, when applicable, the applicant shall substantiate the following:

E. When requesting a waiver from one or more development standards listed in Section 22.140.760, the requested waiver is necessary because the standard (*please specify which standard*) would prohibit or effectively prohibit the provision of personal wireless services, pursuant to Title 47 of the United States Code, section 332(c)(7)(B)(i)(II), or any successor provision. (*Describe how the standard would prevent wireless services*).

F. When requesting a waiver from one or more development standards listed in Section 22.140.760, the requested waiver is necessary because the standard (*please specify which standard*) would otherwise violate applicable laws or regulations (*provide citations*).

G. When requesting a waiver from one or more development standards listed in Section 22.140.760, the requested waiver is necessary because the standard (*please specify which standard*) would require a technically infeasible design or installation of a wireless facility. (*Describe how the standard is technically infeasible, and no alternatives exist to satisfy the standard.*)

PROPOSED ENVIRONMENTAL DETERMINATION

DETERMINATION DATE: October 21, 2025
PROJECT NUMBER: PRJ2024-002943-(5)
PERMIT NUMBER(S): Conditional Use Permit No. RPPL2024004368
SUPERVISORIAL DISTRICT: 5
PROJECT LOCATION: 8557 East Avenue S-8, Littlerock
OWNER: Jose and Palmenia De La Rosa
APPLICANT: APC Towers
CASE PLANNER: Christopher Keating, AICP, Regional Planner
ckeating@planning.lacounty.gov

Los Angeles County ("County") completed an initial review for the above-mentioned project. Based on examination of the project proposal and the supporting information included in the application, the County proposes that an Exemption is the appropriate environmental documentation under the California Environmental Quality Act ("CEQA"). The project qualifies for an exemption pursuant to Class 3 (New Construction or Conversion of Small Structures) under State CEQA Guidelines section 15303 and the County environmental guidelines because the project involves the construction, operation, and maintenance of a new wireless communications facility consisting of a 72-foot-tall faux water tank and appurtenant facilities, which will have no significant effect on the environment and minimal footprint on the Project Site, similar to utility infrastructure. No development is proposed in a Significant Ecological Area or other designated environmental resource area. The project does not result in cumulative impacts, is not near a scenic highway, is not included on a list of hazardous waste sites, does not impact historic resources, and does not result in other significant effects on the environment. Therefore, no exceptions to the exemptions are applicable and the Project can be considered categorically exempt.

SUN VILLAGE: Propagation Maps

June 19, 2024

Propagation plots presented were generated using Atoll and estimates Verizon's expectations given the configuration (height, location, antenna type, etc) of the sites in the study. Building materials, thickness of walls, topography and terrain, and varying types and sizes of vegetation can affect the accuracy of the RF model's prediction.

Confidential and proprietary materials for authorized Verizon personnel and outside agencies only. Use, disclosure or distribution of this material is not permitted to any unauthorized persons or third parties except by written agreement.
